

## **US MOTOR WORKS FUEL PUMP TESTER REWARDS PROGRAM**

- US Motor Works is happy to announce the release of our new Bench-Top Electric Fuel pump tester.
- The unit has been designed to be one of the highest quality, and easiest to use Bench-top Electric fuel pump testing units available.
- We realize that it is important for our customers to be able to test the electric fuel pumps and fuel pump modules that they are selling to their customers, either to confirm the function at the time of sale, or for verification of a failure at the time of return.
- Therefore, we set forth to design a high quality, easy to use electric fuel pump tester and make it available to our customers for their in-house use.
- We believe it is very important for our customers to have these testing capabilities available and we have implemented a new Customer Rewards Program for these testers.

### **PROGRAM DETAILS**

- Customer must purchase at least one tester at \$499.95 USD
- For every increment of \$25,000 USD purchased annualized from the USMW fuel pump product line, the customer will receive a credit for the price of one fuel pump tester (499.95USD).
- Customer can only receive credits for the number of machines they have purchased.
- For each credit (499.95USD) earned above the number of testers purchased by the customer, USMW will provide one free tester.
- Program based on annual customer purchase total between April 1<sup>st</sup>, 2009 and March 31<sup>st</sup>, 2010
- Purchase totals cannot be carried over to next period.
- Program begins 4/1/09 and will continue until further notice.
- All purchases prior to program start date not valid for program.
