50 YEARS OF KEEPING PERFORMANCE COOL!

BRUSHLESS DUAL POWERPACK - 12-INCH RAD FAN/ALUMINUM SHROUD WITH BUILT-IN PWM CONTROLLER 67942-185

DeraLe Brushless Powerpacks deliver cooling with dual 12-inch brushless fans, integrated PWM controller, and a slim 3.5-inch welded aluminum shroud. Producing 4,400 CFM, they maximize airflow for tight-core radiators while offering soft-start technology and extended component life, ensuring performance in the most compact package available.

FORD E40D, 4R100, 5R110 & 5R110W TRANSMISSION COOLING PAN 14208

DeraLe's Transmission Cooling Pan uses air passing beneath the vehicle and redirects it to lower transmission oil temperatures. Designed for Ford's E40D, 4R100, and 5R110 and 5R110W heavy-duty transmissions, this pan features brazed, turbulator-equipped airway tubes passing through the lower section of the transmission pan for more efficient cooling.

18 ROW HI-FLOW RACING REMOTE FLUID COOLER WITH LOW-PROFILE FAN 65860

18 Row Hi-Flow Racing Cooler is precision TIG welded and features efficient tube design, which supports up to 350 PSI with minimal pressure drop. Mounted 8-inch electric fan is IP68 certified (Water/Dust Proof) and designed to do its best under the most strenuous conditions.

16 PASS ELECTRA-COOL REMOTE COOLER 13700

With its own air supply available when needed, the Electra-Cool can be mounted anywhere, making it a popular addition for performance compacts, hot rods, muscle cars, and trucks. An efficient 16-pass tube and fin cooler coupled with a powerful 10-inch diameter Tornado fan.
